TransUnion

POINT. CLICK. FIND.

Featuring a customizable, user-friendly interface designed for ease of use, TLOxp can help verify a subject's identity in seconds, deliver a detailed history and determine likely locations. See why thousands of law enforcement agencies nationwide trust TLOxp and TruLookup to help save time, money and — most importantly — lives.

TLOxp delivers an actionable picture of the relationships between people, assets and businesses, resulting from the fusion of 10,000+ public and proprietary data sources.

SAVE TIME. REDUCE LEGWORK. IDENTIFY AND LOCATE SUBJECTS.

TLOxp helps law enforcement save precious resources by delivering actionable subject information and locations in seconds. Armed with answers you can trust, you can explore leads, exhaust possibilities, eliminate dead ends and resolve cases faster.

ELEVATED SEARCH TOOLS MADE FOR LOCATING.

Partial data searches

Enter partial information from addresses, SSNs, telephone numbers and more. Search by location radius or age range. Even enter a phonetic name spelling and TLOxp can narrow the search to the fewest possible options.

Address reports

Run the complete history of any residential or business address to receive analytics-based rankings and right-party contact for subjects.

Quick-search

When the clock is ticking, quick-search enables you to immediately access critical information from the main page without expending additional time and effort.

Social media comprehensive report

Investigate a subject's online presence to learn possible whereabouts and identify associates.

Driver's license searches

Advanced search capability via expanded geographic coverage provides more extensive data to link relationships with relatives, acquaintances and business associates.

Real-time phone carrier search**

Access important mobile phone carrier details via the new, real-time phone carrier search.

Real-time incarceration and arrest data

Retrieve nationwide incarceration and arrest information, monitor subject's activities, and be notified when incarcerated or an arrest has been made.

CONTROL ACCESS, REPORTS, SEARCH CRITERIA AND MORE.

TruLookup for law enforcement fits your needs — not the other way around. You set the access parameters, define search criteria, and decide who sees what and who doesn't. Then, create custom reports featuring your selected search criteria. Enjoy unmatched control to minimize user errors and enhance performance.

TRAINING AND SUPPORT

From login setup to help with reports, we deliver the industry's finest training and support services at no additional charge.
