

LOCATE AND RECOVER

Right-Party Contact

OVERVIEW

Access powerful technology and data to reach the right party quickly with TruLookup™ Right-Party Contact. Using up-to-date contact info can help you save time, work more efficiently and cost effectively, improve operations – and boost your organization's bottom line.

PRODUCT FEATURES

Save time, money and more using actionable searches

Our advanced, user-friendly online platform TLOxp®, part of the TruLookup™ product line, delivers current contact info when you need it. Filtering through billions of public and proprietary records, it produces instant, reliable results to help you save time, money and resources.

Tap a rich, trusted data source to reach the right party faster

With information on more than 95% of the US population, our database provides an optimal mix of coverage and accessibility. This can help you reach the right party quickly, with less effort – and more likely on the first attempt.

Gain peace of mind knowing the data you need is a click away

Get daily updates to better meet your needs. TLOxp provides fresh, actionable information on demand so you can stay on track, knowing your organization can access critical data at a moment's notice.

CONDUCT BUSINESS WITH MORE CONFIDENCE

Work more efficiently by using only the best phone numbers

We've amassed billions of telephone records, including landlines, mobile phones and VoIPs. Our linking algorithms instantaneously produce the best phone number to help maximize your contact efforts while increasing efficiencies.

Locate subjects quickly with analytics-based address rankings

Our analytics-based model provides address rankings, helping you locate your subject quickly and affordably. Rankings are derived from more than 11 billion unique name and address combinations and 60 variables built around the person, address and person-address association.

Get the job done more easily with robust employment data

Employment data can help you locate parties for debt recovery, facilitate wage garnishment, investigate fraud to reduce risk and more. We provide access to millions of employment records, as one of the largest sources of employment data in the US.
