

## Data Solutions for General Counsel and its In-house Legal Team

How TransUnion's TLOxp investigative solution help you

- ✔ Streamline due diligence investigation for mergers, acquisitions and new partnerships
- ✔ Vet vendors, partners and other business relationships
- ✔ Understand connections between people, assets and businesses.
- ✔ Enhance your compliance measures with our Global Watch list search
- ✔ Conduct investigations for litigation, including pre-litigation phase
- ✔ Run due diligence searches for experts or witnesses
- ✔ Mitigate internal and external fraud investigations

TransUnion's TLOxp® solution helps general counsel and its in-house team retrieve actionable information aggregated from public records, publicly available social media profiles and proprietary data sources to streamline due diligence and enhance risk mitigation.

**Make better-informed decisions, act with greater certainty and protect your company**

By tapping into actionable insights in TLOxp, you quickly and easily generate a 360-degree profile of people, relationships and businesses that can be used for identity verification, internal and external fraud prevention and detection, and legislative compliance.

## TLOxp: The intuitive investigation tool for GCs

TLOxp is our online investigation tool that provides you access to an intuitive, easy-to-use database with searches and reports that meet your needs. Searches crawl our vast database in fractions of a second, drastically reducing research time and effort.

Rather than outsourcing to outside counsel or hiring private investigators, you can use TLOxp to quickly generate actionable intelligence about individuals, businesses and assets in just a few clicks.

You can also visualize connections among individuals and entities to quickly assess how they are related.

TransUnion's data solutions for general counsel are designed to meet your unique needs. We serve a broad range of general counsel and use cases - ranging from retail companies to insurance companies and ranging from investigating potential counterfeit product cases to conducting due diligence on witnesses or related to a merger or acquisition.

**Contact us** to discuss how the **TLOxp** solution can benefit you and your company.

### Why TransUnion TLOxp?

TransUnion helps you unlock the advantages of data. Our solutions are:

- **Robust:** Our database contains more than one billion data points sourced from public and proprietary data sources.
- **Updated:** We update our data multiple times a day so that you're receiving actionable information.
- **Intuitive:** An easy-to-use interface ensures you're able to search with no special training needed. If you can conduct an Internet search, you can use our products.
- **Efficient:** Our solutions help reduce time and costs related to research and investigations.

### TRAINING AND SUPPORT

From login to set up to help with reports, TransUnion delivers personalized training and highly responsive support services free of charge.
